## FOREWORD

This Guide, the eleventh edition published by the Transport Department, contains information on scheduled public transport services now available in the Territory.

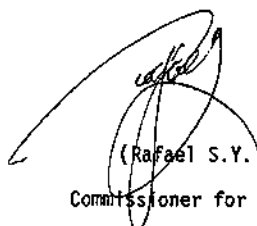

The first part of the Guide gives 'Schedules of Services'. These include the routes, fares, journey distances, first and last departure times, frequency range and journey time. For ferry or bus services the frequency of which is over 60 minutes, the whole timetable is given.

The second part is an index with public transport information grouped on an area basis. By cross referencing the two parts, it is possible to identify the most convenient public transport modes to take for any particular journey.

The details of scheduled public transport services in this Guide indicate the position as at October 1993. The network of these services of course need to be expanded and modified from time to time so as to meet changing demand. For the very latest information on services, therefore, users may refer to the enquiries 'hotline' page and contact the operators direct.

A table on urban and New Territories taxi fares (taking effect as from 14 November 1993) is also included.

I hope this Guide will be of use to those who make use of Hong Kong's extensive public transport network.

(Rafael S.Y. HUI)  
Commissioner for Transport
