FOREWORD

This Guide is the fifth edition published by the Transport Department containing information on the wide range of scheduled transport services now available in the territory.

The first part of the Guide gives the detailed 'Schedules of Services': the routes, fares, journey distances, first and last departure times, frequency range and journey time. For ferry or bus services whose frequency is over 60 minutes, the whole timetable is given.

The second part is an index with public transport information grouped on an area basis. By cross referencing the two parts, it is possible to identify the most convenient public transport for any particular journey.

The services of taxis and red public light buses are not covered by the Guide because they do not operate on fixed routes and schedules. Nevertheless, a table on urban and New Territories taxi fares is also included.

The details in this Guide generally indicate the position in April 1987. However, the network is constantly being expanded and modified to meet growing demand. For the latest information on public transport services, users of this Guide may refer to the enquiries 'hotline' page and contact the operators direct.
