FOREWORD

This Guide is the seventh edition published by the Transport Department containing information on a wide range of scheduled public transport services now available in the Territory.

The first part of the Guide gives detailed 'Schedules of Services'. These include the routes, fares, journey distances, first and last departure times, frequency range and journey time. For ferry or bus services whose frequency is over 60 minutes, the whole timetable is given.

The second part is an index with public transport information grouped on an area basis. By cross referencing the two parts, it is possible to identify the most convenient public transport modes to take for any particular journey.

The services of taxis and red public light buses are not covered by the Guide because they do not operate on fixed routes and schedules. Nevertheless, a table on urban and New Territories taxi fares is also included.

The details in this Guide indicate the position in June 1989. However, the network is constantly being expanded and modified to meet growing demand. For the latest information on public transport services, users of this Guide may refer to the enquiries 'hotline' page and contact the operators direct.

I hope this Guide will provide useful and easy-to-obtain information to those who wish to make use of Hong Kong's extensive public transport network.
